Special Guest and Q&A Facilitator:

Dr. David Hackethorn, M.D., Director of General Internal Medicine, Scott & White,
College Station, Texas

Program Features:

Mary Margaret Mann presents a dramatic theater production called “A Dance of Life”. The production is a positive and life-affirming perspective she uses as a vehicle through which to carry the message of hospice. The play was inspired by the concept of life management through hospice care and predicated upon the idea that life is a dance and there are many lessons learned. The performance focuses on support, comfort, encouragement, life, love and how to embrace death.

Keynote Speaker, Dr. David Dosa, MD, MPH and best-selling author of *Making Rounds with Oscar: The Extraordinary Gift of an Ordinary Cat.*

Dr. Dosa is a geriatrician and health services researcher at Brown University in Providence, Rhode Island. His current research interests include nursing home quality improvement, nursing home infections and medication errors in the elderly. He is author of over fifteen peer-reviewed publications with topics including: *Dementia, The Appropriate Care of the Elderly, Chronic Disease in America and Aging*, and *How we Change*, to name a few.
